Patentee hereby petitions the Commissioner under 37 CFR 1.182 for correction of inventorship in U.S. Patent 6,856,469. In particular, Tsuneo SATO and Hayato NAITO should be added as inventors.

Enclosed is a copy of the Declaration in this application, printed from the publicly available PAIR records and showing the USPTO OIPE stamp of receipt on March 8, 2004. The Declaration is three pages in length, with the signatures of two of the seven inventors, Tsuneo SATO and Hayato NAITO, occurring on the third page of the declaration. Thus, it is apparent that the USPTO erred in this application by including only the five inventors from the first two pages of the declaration, and omitting the two inventors from the last page of the declaration.

Applicant attempted to correct this matter via a Certificate of Correction, as this is clearly a USPTO error. Enclosed is a copy of the decision denying applicant's request. The decision states, in particular, that the USPTO prints the inventors' addresses and names "solely in accordance with the typed/printed names and addresses on the Declaration". In this case, however, as clearly shown by the

enclosed stamped copy of the Declaration, the USPTO did not carry out this responsibility.

Please charge the petition fee of \$130.00 under 37 CFR 1.17(f), and any additional fees due, to our Deposit Account No. 50-1314. Please charge any deficient fees in connection with the filing of this petition or credit any overpayment to our Deposit Account No. 50-1314. A copy of this Petition is enclosed.

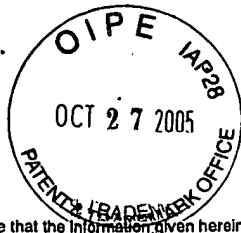

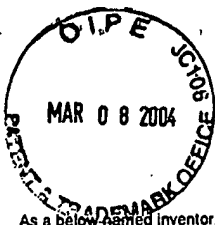

Respectfully submitted,
HOGAN & HARTSON L.L.P.
